1. Concrete fortifications are being built south and southeast of Bitelj along the following lines:

- (a) Maglenci-Samar-Kula (1102 meters)-Preslep (1031 meters)-Vomac (874 meters)-Rasje (868 meters)
- (b) On the left bank of the Crna River: Gola Glava (662 meters)-Brod-Gradiste-Slivnica-Skocivir-Kauderica (742 meters)-Oatra (964 meters)
- (c) Tumba (1103 meters)-1304 meters-Karna (1467 meters)-Jelak (1662 meters)-Jelak (1470 meters)

2. At Bitelj there are a considerable number of Russians, especially civilians, whose number increases every day. Several Soviet instructors arrived at Bitelj about 25 September. The headquarters of the Soviet command and the transit station for Albania is at Struga.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
Next Review Date: 2008

Document No.
